

# Pray for Healing:

## Allan Howard

Please pray that there would be no evidence of cancer on his MRI on Oct 31st—and never again. Pray that he could be finished with daily oral chemo soon or would tolerate it much better for the next 10 months.

## Ashley Saunders

Pray for the ringing in my ears to go away (been ringing since April 2015). And for God to heal my and my kid's teeth/gum issues. It is A LOT to deal with physically and emotionally (and financially).

## BJ Eble

Pray for neurological issues, muscle fatigue, walking/gait and balance issues and for the discipline and strength to perform the recommended exercises to aid in dealing with my condition

## Brenda Belcher

Clarity for what is causing extreme fatigue and clarity on whether or not to go back to school and pursue a career in healthcare

## Charline Payne

Healing for my left shoulder, leg, and neck.

## Elizabeth Hansen

Please pray that I can fully trust God for complete healing from chronic illness, while being patient and finding joy in the process.

## Elizabeth Watts

We would love prayers for Elizabeth's chronic health issues. She has a leaky heart valve and a Cystic Fibrosis related lung disorder. She has issues with her growth as well. We would like to pray for complete healing for her.

## Jason Shepherd

Pray for healing for my left knee that was injured last year that has yet to heal completely.

## Josh Chapman

Healing for kidneys

## Juliana Radomski

Back problems

## Julie Carpenter

I will be getting my second chemo infusion on September 20 around 10:00am. Please pray that the chemo continues to kill the cancer cells in my body. And that the side effects will be minimal or NOT at all

## Jud Reel

Diabetes

## Kai Rokovunisei

Complete healing from MMA and protection for all his organs, healing for his kidneys

## Karen Shaw:

Healing and solutions for ongoing knee problems

## Kelli Tysinger:

Autoimmune disease-causes extreme nerve and muscle pain, migraines, fatigue

## Kelsey Baker:

I currently have six brain tumors and multiple tumors in my spinal cord (I can't remember exactly but somewhere in the range of 5-7) and am also losing my hearing.

## Katie Coyle:

I'm having a frozen embryo implanted on September 22. I'm trusting God's will for the result, but if I were to get pregnant, I pray for a happy, healthy pregnancy and baby.

## Kevin Houston

Full recovery from a stroke

## Kristin Bernazard

Please pray for my foot. I've been suffering with intense pains of plantar fasciitis for a year now. Doctor was able to block pain for a few months but it's back again. Prayers that I can be healed or I'll be headed to surgery. If surgery needed prayer over that.

## Matt Allen

Foot injury that isn't healing

## Malachi Mapleswright

to thrive in healing from the stroke and specifically that he would either- 1. not need Botox injection treatment for his hand and leg or that 2. he would tolerate it in a miraculous way. Malachi is developing a severe fear of doctors which doesn't go well with his constant need for checkup appointments. We really need a breakthrough in this area

## Mary Grace Bennett

I want to be healed from the inside out. I need to be healed of my desire to chase my own plans, and to find temporary satisfaction in sleep/alcohol/TV/etc. which has lead me to despair. Pray that I can find delight in the Lord's plans for me, and that when I do try to force my plans the Holy Spirit can speak to me in a way where I feel lead to fix my heart and my vision to focus on Him.

## Nancy Putman

Diabetes

## Norrie Morrison

Healing from rheumatoid arthritis and its ongoing symptoms

## Scott Turner (Carol DeBorde's son)

Physical healing

## Shannon Lauer

Healing for ulcerative colitis and would also like to get pregnant

## Tina Cantwell

Undergoing lymphedema bypass surgery on her arm at MD Anderson later this month

## Vanessa Chavez

Chronic Lyme disease

# Healthcare Workers

## **Amy Howard**

I am in my final year of residency and feeling the strain of limited time with my husband and kids and extra stress at work. Pray that I would find a good job upon graduation next spring.

## **Angie Ellis**

Pray that I would be the respiratory therapist that He called me to be and I would always seek His wisdom. Please also pray for a healthy marriage

## **Baily Williams**

Occupational Therapist  
6 months pregnant but still experiencing extreme nausea almost every day. Please pray for the health of both mom and baby.

## **Beth White**

Children's Healthcare-Master's in Conflict Management-focusing on the Hospitalized Child (Child Development)

## **Cameron Cantwell**

Just had an interview at Morehouse School of Medicine a week ago. They should let him know if he is accepted in the next few weeks so please pray for his acceptance.

## **Carrie Kilgore**

Pray that God finds a way to use my faith, nursing skills and abilities to benefit his kingdom, now that I am retired

## **Carolyn Smallwood, DO, MPH, FAAFP**

Wellstar Primary Care At White Circle  
Please pray I can be a leader that wholly follows God's prompting. Pray that by God's grace I can provide excellent medical care and speak words of insight and healing as I serve my patients and point those I interact with towards Jesus, our true healer.

## **Daryl Abney**

Physician Assistant at Kennestone in the Cardiac Critical Care Unit (CCU) working with Wellstar Cardiology sickest cardiac patients.  
I've been doing it a long time and now feel like my time has come to a close in this chapter. I've suffered terrible burnout over this past couple of years as you can imagine I'm asking for direction as I really don't know where to go from here as I've only really known critical care illnesses.

## **Eli Alfonso**

I'm a nurse at Kennestone labor and delivery as well as a school nurse at my daughter's school.  
I'd love prayer as this second job has been to try and be home more often for my family. It's new and navigating this has been a challenge.

## **Heather Morgan**

Chiropractor

## **Jordan Stanley**

Atlanta VA Medical Center

## **Larry Watkins**

Please pray for Jesus' calming presence for so many I am walking with who are suffering from anxiety and shame. Pray that those who are weary and downtrodden will come to Him and find rest, leaning on and trusting Him for their healing and deliverance. And pray for revelation, breakthrough, and freedom!

## **Mike Andrews**

Medical oncologist at Kennestone  
I would like prayer for patients whose lives, work, relationships and finances are turned upside down with a cancer diagnosis. Their future can be highly uncertain. They worry about their children's future without them. It can be a daily battle to exist in peace. Also 20% of cancer patients have preexisting psychiatric diagnoses. Pray they will turn to the Lord for love, peace, comfort and companionship.

## **Newt Pittman**

Emergency Department Nurse  
In the Emergency Department we encounter a wide spectrum of individuals and we meet them typically on their worst days (no one expects to be in the ED). Over the years nurses and ED staff have tolerated verbal and physical violence from patients and or their visitors. Please pray the hospital administration's eyes would be opened to this issue and they would create safety measures and hold patients and visitors accountable for their actions.

## **Karen Shaw**

Volunteer work with Georgia Transplant Foundation, helping caregivers and transplant patients

## **Rachel Chapman**

Nurse

## **Reid Morgan**

Home health physical therapist

## **Ryan Cantwell**

Please pray for me at work as there are many issues going on right now

## **Sandy Gillam**

I'm the unit charge nurse at Emory Saint Joseph's  
Pray for our staff to be encouraged as we continue to work short-staffed and for more nursing staff (we have had a mass exodus-some working as Travelers and some leaving the profession). And I was recently presented with an opportunity to step into the director role. My heart is torn as I love being with patients and at the bedside as well as being a leader and encouragement for my teammates. Pray I would hear clearly from the Lord and that He would lead me to the next step He would have me take.

## **Shannon Lauer**

Emory Healthcare

## **Stephanie Bracken**

19 years at Kennestone Hospital ER nurse
